Index —*Quarterly Bulletin of IAALD*
Volume XXXII, 1987

USING THE INDEX

The index combines all types of entries:

- *Authors*
- *Titles*
- *Persons*
- *Institutions*
- *Databases*
- *Subjects*

in a single index. Most institutions, centers and organizations are listed by their acronyms.Titles are shown in italics, with the titles of News articles identified by (N) after the title. Individuals who are listed as subject entries rather than authors are indicated by the letter in parentheses (N) after the name. Language of entry in the index is that used in the original article, where that was the only entry available; but where the correct name or term was available in any of IAALD's four languages, the correct form is given preference.

Entries are arranged alphabetically, word by word, using the "file as spelled" principle; acronyms are aranged as words.

PAGING OF VOLUME XXXII

Pages 1-64 = *No. 1 (March)*
Pages 65-131 = *No. 2 (June)*
Pages 131-180 = *No. 3 (September)*
Pages 181-249 = *No. 4 (December)*
